

## WITT gas filters for reliable protection against contamination.

### Benefits

- filtering out of mechanical impurities through nickel chromium steel filter inserts
- broad range of uses – compatible with many technical gases
- change of filter possible while installed due to userfriendly design
- high flowrate thanks to flow maximising design
- reliable filtering performance increases service life of downstream fittings and equipment

### Operation / Usage

- the gas filter is designed for installation in pipe-lines

### Maintenance

- the filter inserts must be checked regularly and replaced if necessary
- suitable for hook wrench HN 10 according to DIN 1810

### Approvals

Company certified according to ISO 9001  
 CE-marked according to:  
 - PED 2014/68/EU
