

WITT-SWITCH

Control Unit for pressure regulating stations

Switch and Control Unit for automatic change over of pressure regulating stations. Provides a smooth process flow and optimal results with a continuous gas flow.

Benefits

- intelligent control, - the last selected gas supply will be activated after an emergency stop
- freely selectable side for starting
- compatible with WITT-Pressure regulating station
- quick and easy wall mounting
- optimal draw down of cylinder
- visual alarm
- status indication and operation by touch-screen
- integrated emergency cut-out

Operation / Usage

- for automatic change over of pressure regulating stations for continuous gas withdrawal
- applicable for switching an emergency supply

Function

- automatic change over with controlled limit values by two solenoid valves between two connected cylinders or cylinder bundles

Options

- additional audible alarm device
- flashing beacon

Approvals

Company certified according to ISO 9001

Technical Data	
Order-No.	194-019
Voltage	230 V AC, 24 V DC
Power consumption	max. 2.5 A
Housing	aluminium with plastic sheave
Enclosure rating	IP65
Temperature range	32°F up to 158°F
Dimensions	
Height	approx. 16.54 inches
Width	approx. 14.96 inches
Depth	approx. 11.02 inches
Weight	approx. 459 oz
